# AIRED IN THE SENATE

TURNER GETS A HEARING THEREON.

hays the Administration Acted Perfidlously and la Bad Faith in the Whole Affair-Other Matters Up.

Washington, Jan. 22.—Soon after the senate convened a joint resolution was offered by Mr. Platt (N. Y.), authorizlng the president to invite the 'government of Great Britain to join in the promotion of an international commission to examine and report on the diversion of the waters that are the boundaries of the two countries. It was referred to the committee on foreign relations.

Mr. Hoar, chairman of the judiciary committee, reported back the resolution of Mr. Rawlins (Utah) for an inquiry upon polygamy with a recommendation that the first and last paragraphs of the resolution be adopted. The report was accepted, and the resolution as amended adopted. As passed tho resolution reads: "To what extent polygamy is practiced or polygamous marriages entered into in the United States, or in places over which they have jurisdiction."

Mr. Allen (Neb.) offered a resolution calling upon the secretary of the treasury to furnish the senate with all information consisting of correspondence and verbal communications he may have had with A. B. Hepburn and other officials of the National City bank of New York, concerning the transmission of the custom house of New York to the National City bank. It went over under objection.

At the conclusion of the routine business Mr. Pritchard (N. C.) called up his resolution relating to the proposed amendment to the constitution of North Carolina, which, if adopted, lt ls alleged, "disfranchises a large class of voters of the state." After the reading of the resolution Mr. Pritchard addressed the senate in support of lt, his address being in the nature of a reply to that delivered sev. eral days ago by Senator Morgan.

Mr. Pritchard was frequently interrupted by Mr. Tillman (S. C.) and Mr. Money (Miss.).

Turner's Turn.

In accordance with notice previously given, Mr. Turner (D., Wash.) then addressed the senate on the Philippine question. His discussion took a wide range. He said perfldy and bad faith were involved in the pretentions put forth by the administration of either a local or a moral right to absorb and govern the Philippines without the consent of their people. The people of those islands were, he said, a brave, resolute, liberty-loving people, and their struggles ought to win the admiration and respect of every member of the American senate.

Mr. Turner then related the oft-told story of the ailiance which was formed between the United States forces and the Filipinos for the subjugation of Manilia, and the expulsion of Spain from the islands, and expressed the opinion that had our army been delayed for a few weeks, the Filipinos themselves would have captured the clty. He deciared that the Filipinos believed they were fighting for their own independence, yet the president's message set up the claim that independence was an after thought founded on the sinister ambition of certain Fillpino leaders. This assertlon, Mr. Turner said, was unfounded, and he quoted extensively from official documents in maintenance of his declara-

"Our action has no parallel in the history of all the world from the be glnnlng of time down to the present moment," sald Mr. Turner. "I veature to say that there is not one Amerlcan voter in a hundred, who would not have repudiated the pretentions of the administration as perfidious and dishonorable, if called on with full knowledge of the facts to sanction them in the beginning and before the present desolating war began."

He paid a glowing tribute to the Boers in their gallant struggle against the aggressions of a ruthless invader, Sald Mr. Turner: "In other days our sympathy would have been expressed through governmental channels. But now that ghost of liberty, murdered in the Philippines, stands in the way." Mr. Beveridge's speech was characterized a rhapsody that "iacked the majestic harmony which can be evoked only when the nobler chords

are struck." Mr. Turner controverted the president's statements that the islands were ours by every title of law and equity, because the Filipinos had assumed fendants returnable on April 2.

that sovereignty by the God-given right of revolution. If the United States had any rights at all in the Phillpplnes, they were gained purely by purchase, and could not, in his opinlon, be fixed in law by the treaty of Parls, because the Fllipinos were not a party to that treaty.

#### COUNT WAS WROTH.

Says He's Not a Gambler and Pitches

Into a Parls Editor. New York, Jan. 22.-Count Boni de Castellane and the Countess de Castellane, nee Gould, arrived in this country from Havre, France. They went to the Waldorf-Astoria hotel. The count was willing to talk about the storles of his losses by stock spec-Llation and gambling. He speaks very good English, with a slight accent. As to DeRoday, the editor of the Paris Figaro, the paper which circulated the story, he said:

"DeRoday is a liar, he is a scoundrel -say anything you like about him. He is nothing, a nonenity. What should I care for him? Oh, he is a liar. I never gambled in my life," sald Count de Castellane warmly. "I never played cards for money nor gambled in any other form. I did not lose money in speculation." He has sent a message to the Figaro editor demanding Instant retraction.

#### Election of Senators.

Washington, Jan. 22.—The report filed on the house bill for the election of United States senators by the pcople reviews the arguments made in favor of this change, and refers to the unfortunate conditions which have occurred in Kentucky, Idaho, Delaware and other states under the present system. The bill as reported leaves it discretionary with legislatures to contlnue the present system or adopt the system of a choice by the people.

Street Rallway Plant In Rulns. Muncie Ind., Jan. 22.—Flre destroyed the power house, shops, barns and offices of the electric street railway system, entailing a loss of \$75,000. Sixteen cars were consumed and the engines were ruined. It is believed the plant will be rebuilt, as plans are under way for a new structure in another part of the city. The entire electric system is tied up because of the fire and horse cars will be utilized temporarily.

Arbitrators Appointed.

. Managua, Nicaragua, Jan. 22.-The Nicaraguan government will appoint Jan. 10, assert that the Boers keep up Jose D. Rodriguez and Bruno Buitrage as arbitrators for Nicaragua in adjusting the differences with the Maritime Canal eompany. It is understood that the government will object to United States Minister Merry and Rudoiph Welser, the company's agent, as representatives of the company in the arbltration.

Boers With tand the Pier e Assaults of the British Troops.

LATTER'S ADVANCE MAY BE BLOCKED

Reilef of Ladysmith is Delnyed Owing to Clrenmstances Over Which General Buller Las No Control.

Landon, Jan. 22.—Nothing has been received thus far to indicate that any conclusive result has been reached by the British forces in the region of the Upper Tugela, and the lack of information regarding what men and ammunitions the Boers have in reserve prevents accurate determination of the measure of real success along the two days' hard fighting. Ali that can be sald is that the British seem to be doggedly advancing in the face of an equality stubborn resistance. At the close of Sunday's fighting the Republicans had merely evacuated their first line of defense to take up another semi-circular position a short distance in the rear, recailing the old burgher ruse by which the Boers have previously managed to entice the British into fatal traps.

Dispatches from elsewhere in South Africa give trivial details of minor happenings, and do not iliuminate the situation. The widow of General Wauchope, in an open letter, hotly denies the stories that the general in auy way criticised General Methuen.

Though there is considerable anxiety as to the immediate result of General Buller's dash at Ladysmith, which later developments indicate were undertaken independent of Field Marshal Roberts, the war office has now come to the conclusion that the relief of Ladysmith is only a matter of a short time. According to the war office officials' ideas, a dash to the rel!ef of Kimberley wiil quickly follow the relief of Ladysmith, and then, without doubt a long speil of organization, and perhaps three or four months will elapse before the column or columns will have their transportation in a fit shape to advance with the certainty of meeting with no serious reverses.

Dispatches from Mafeking, dated a continuous bombardment of town. The garrison officers believe they can hold out for three months. General Buller sent two dispatches to the war office on Sunday. The first dealt with the fighting on Sunday, General Warren's column being engaged with the left wing of the entrenched Boers all day long. The British made no substantial progress toward Ladysmith. The second dispatch places the English list of casualties as a result of Saturday's fighting at 300 wounded. Fatalities omitted.

Boers Firmly Resist.

Spearman's Camp, Natal, Jan. 22.-Early on Sunday morning General Warren commenced a flanking movement on the extreme left of the Boer position. The infantry advanced at 5 in the morning along the irregular Tambanya mountain, which ends at Spionkop. The artillery occupied positions behind and on the plain. The British carefully worked along the hills within 1,000 yards of a commanding kopje, on which the Boers were concentrated, concealed behind lmmense boulders strewn thickly over the hill. The artiliery opened the attack and the batteries worked continuously, pouring tons of shrapnel among the Boers, who devoted their attention to musketry firlng on the British Infantry.

The Boers stuck to their rocky fastnesses with the greatest tenacity, and at the conclusion of the day the British had only advanced across a few ridges. The Boers apparently have few guns, and they did little damage. Captain Honley of the Dublin Fusiliers fell mortally wounded while leading his men to seize a fresh point of ad-

Canal Bill Will Pass.

Washington, Jan. 22.—The Hepburn. Morgan Nicaragua canal bill will probably be passed during the present session of congress. The measure will receive the approval of the president. There is an overwhelming majority in both houses of congress in favor of the pending bill, and in favor of passing it without walting for the report of the Walker commission.

BRYAN IN NEW YORK.

Recipient of Much Attention From All Factions of Democracy.

New York, Jan. 22.-There is great stir in Democratic circles over Coionel W. J. Bryan's visit to New York. Mr. Bryan, when he arrived, went to the Hoffman House, the headquarters of the state Democratic organization, which is controlled by Tammany Hall. A silver Democratic leader had hoped to entertain the Democratic leader, but the latter declined. Mr. Bryan spent the day in consultation with the various leaders in the city, and at night was the guest of O. H. P. Belmont at a dinner given in his honor. There were about 350 men at this feast, and all factions of the party were repre-

Mr. Bryan will be the recipient of much attention from Democrats from all factions while in the city. On Tuesday morning the members of the state committee of the Chicago Platform Democracy will wait upon him at the Hoffman House. They will place before him their plan for selecting a contesting delegation to the coming national convention.

Mr. Bryan was asked in view of the contradictory statements in regard to his policy, how he stood, and replied: "I stand on the same lines. I am net abandoning any platform or any principles. I shall talk on silver, the trusts and imperialism."

"You place silver first?" was asked. "I make no special order," said Mr. Bryan. "Any one of them is enough to kill the Republican party."

Scattering the Fillpinos.

Washington, Jan. 22.—General Otis, in a dispatch to the war department bearing upon military operations in the Philippines, reports that Major Johnson, in command of a battation of Wheaton's brigade, drove the enemy through Balayang province, capturing and killing a number and seizing a quantity of arms and ammunition. Three towns were stormed and taken, with the loss of one killed and three wounded. Last Stand of the Yaquls.

Tucson, A. T., Jan. 22.-A message from Ortiz, a station on the Sonora, reports that carriers from Macoyate confirm the account of the last stand of the Yaqui Indians against the Mcxican general, Lorenzo Torres. Officiai telegrams received in Nogaies places the Mexican loss in kilied and wounded at 80, and a message sent over the government wires confirms the report of the killing of the Yaqui enief, Tetabiate, along with 200 of his fighters.

McKiniey Must Act.

New York, Jan. 22.—The Central Federated union decided to remind President McKiniey that, as a member of the Brickiayers' union of Chicago, he is expected to take an active interest in trades union matters. His attention is called to the fact that pipe calkers and tappers, employed on government work on Bedloe's and Governor's illands, are working 10 hours per day, instead of 8.

# GIVEN GREAT POWER.

United Mine Workers Enlarge the Sphere of Their President.

CONSTITUTION MAKES HIM SUPREME

Becond Ballot to Be Taken For Vice President, but Board Officers Are Chosen-Operators to Meet the Miners.

Indianapolis, Jan. 22.—The seventh day's session of the United Mine Workers was cailed to order by President Mitchell. The election last Thursday resuited in no choice for vice president. The following board officers were re-elected: Fred Dilcher, Nelsonvilie, O.; Benjamin James, Jeansville, Pa.; James Burton, Sparta, llis.; Henry Stephenson, East Bank, W. Va.; W. R. Fairley, Pratt City, Ala.; G. W. Purcell, Terre Haute, Ind.; Edward McKay, Luena Vista, Pa.

A second bailot will be taken for vice president, and to select a successor to board member John P. Reese of Iowa, as he is to retire. Reese and ".. L. Lewis of Ohio, remain in the field for vice president. W. D. Vanhorne of Indiana dropping out.

Many amendment were made to the constitution. The constitution, as amended, gives President Mitchell greater power. It makes him almost supreme, and he can suspend certaia officers and appoint their successors.

An amendment was passed to lncrease salaries of officers as follows: President, from \$1,200 to \$1,500; seerctary treasurer, from \$1,000 to \$1.300; vice president, from \$900 to \$1,200; editor of the Mine Workers' Journal, from \$3 per day to \$1,200 per year; national board members, from \$2.50 per day to \$3. These officers also have ali expenses paid.

The scale committee is still at work. Its report will probably be sent to the operators on Tuesday. The joint conference of operators and miners will also open on Tuesday. Many of the operators are already in the city.

The Illinois, Ohio and Indiana Ope:ators' association held meetings. They oppose a big advance; Iliinois wants the wage scale reduced to that of ludiana. Ohio operators favor an advance, but not over 10 cents. J. Smith Tailey of Terra Haute, president of the Indiana Bituminous Operators' association, says he will decline to preside over the conference.

### A NARROW ESCAPE.

The James H. Hall Plow Factory Caught Fire Last Even-

ing.

Prompt Work of the Department Prevented a Heavy Loss-The Machine Shop and Boiler Room Damaged.

The James H. Hall Plow Factory, Maysville's leading mannfacturing enterprize, was threatened with destruction for a time last evening.

Shortly after 5 o'clock flames were discovered issuing from the central huilding, occupied by the machine shops and as the boiler and engine room.

The fire had started in the rooms over the boiler, but the origin of the flames is a mystery. The watchman, Mr. Ed. Leonard, had only a few minutes before finished banking the fires under the boiler for the night and had started with the shipping-book for the Fifth ward landing to look after a big shipment of plows on the steamer Courier. The alarm was sounded before he reached the landing. It was thought at first that the fire caught

in the chute in which shavings are carried from the second floor to the boiler roum, but an examination afterwards disclosed the fact that there had been no fire in this chute. The supposition therefore is that the fire must have started from a spark that in some way reached the room on the second floor.

Fortunately the Amazon Fire Company keep their hose in hall on the adhose to the plug just in front of their hall door and had a stream on the flames long to get the flames under control. The other companies also responded, and was extinguished. The building and machinery was completely flooded with water, and it will take some time for it to dry out so as to enable the company to make repairs.

The damage is placed at from \$2,000 to \$4,000. The company carries no insurance. This is one of the husiest seasons with the company, and the interference to their business would prove most serious. They will therefore make only ing an overhauling. The temporary repairs will likely be completed so as to enable the factory to start up in a few

It is fortunate the fire broke out when Monday, Wednesday and Friday. it did. Had it occurred late at night the building would no doubt have been destroyed, and the entire plant might have been endangered.

#### PITHY POLITICAL POINTS.

If Mr. Gage didn't know he was violating his obligation as Secretary of the Treasury in the disposition of the immense aum received in sale of the government property, he is not fit to be the incumbent of that high and responsible office.

Mr. Gage must be a mighty accommodating man to make a sale and let the purchaser retain the purchase money.

Mr. Gage must have been wonderfully popular

That job of Gage's seems rottener the more airing it receives.

The man who is too stupid or narrow-minded not to see the trickery about that transaction of Secretary Gage's would be a pleasant customer for a gold-brick man or the faro or monte man.

Mr. Gage has discovered the cloven foot in that transaction to all who have any eyes, and his usefulness, If he ever had any, as Secretary of the Treasury, has come to an end.

The election of McKiuley was simply a case of bargain and sale at the hands of the gold power. and the same crowd have been behind every deal that has been made since.

President McKinley and his advisers have been

as pliable and subservieut in the hauds of the gold power as their favorlie metal is at the hands ol the artisan and artificer.

#### Ninety-eight Per Cent.

There is a fascination about big profits to a business mau. But the couseivative and cautious trader prefers to have the lesser per ceut. of luterest and the larger per cent. of safety ln his investments. There is no business man who would not consider it a sonud proposition to invest in all enterprises in which absolute loss was impossible and which offered ninety-eight chances in a hundred of a rich profit. The statistics of cures effected by Dr. Plerce's Golden Medical Discovery show that 98 per cent. of cases of "week lungs" can be absolutely cured. Almost If not all lorms of physical weakness may be traced to starvation. Starvation saps the strength. The body is just as much starved when the stomach can not extract nutrition from the food it receives as when there is no food. "Weak lungs," bronebial affections, obstigest and distribute the food, and by increasing the supply of pure blood.

# The Latest Information!

≪CONCERNING THE IRON TRADE Is that prices continue to advance on everything in the hardware line, and farmers will have to pay much more for

their Wire Field Fence this Spring than they did a year ago—excepting those who take advantage of our liberal offer. Last Fall, anticipating the advance, we placed a big order with the manufacturers of nerican Woven Wire Field

and offered to sell at the old figures as long as the invoice lasted. Having bought so largely, and it being late in the season, we disposed of only about half our purchase, but we expect the balance to go quickly after our farmer friends

read the good news that we have decided to sell what remains at a figure probably below what the Fence could be bought for to-day in car-load lots. If you intend buying any field Fence this Spring, here's your opportunity to effect a considerable saving by buying now. More of the American Woven Wire Fences were sold last year than all other woven wire fencing combined, and for beau-FRANK OWENS HARDWARE COMPANY ty and durability it has no equal. Every rod is guaranteed. Come in and see us about it.
